AGENDA NO  
2026-07-016-002

**BOARD MEETING DATE: July 29, 2025**

**PROJECT NAME: Agreement with Washington State Transit Bus Cooperative for the Procurement of 35’ Diesel Buses**

**DEPARTMENT: Procurement**

**EXECUTIVE SUMMARY & RECOMMENDATION**

Request Board authorization to issue an agreement with Washington State Transit Bus Cooperative and Chatham Area Transit (CAT) for purchasing Gillig 35’ buses under their contract.

**DATE AND IDENTIFICATION OF PRIOR BRIEFING OR AUTHORIZING ACTION – N/A**

**ISSUE:**

The consortium agreement with Athens Clarke expired in September 2024. CAT is planning to purchase Gillig buses in cooperation with Washington State. CAT IS allowed to piggyback off of their contract number 06719 with Gillig which was originally awarded to Gillig on April 1, 2021. Fleet replacement is deemed necessary and the Federal Transportation Administration (FTA) is allowing their grantees to amend competitive grants staff is requesting the authorization to enter into an agreement with the Washington State Transit Bus Cooperative for the procurement of fixed route buses.

**DISCUSSION:**

Following FAST ACT Section 3019:

1. Cooperative Procurement Contracts Section 3019 allows grantees to purchase rolling stock and related equipment from cooperative procurement contracts. A “cooperative procurement contract” means a contract entered into between a State government or eligible nonprofit entities and 1 or more vendors under which the vendors agree to provide an option to purchase rolling stock and related equipment to multiple participants. The contract term for a cooperative procurement contract may be for an initial term of not more than two years and may include three optional extensions of one year each. A lead procurement agency or lead nonprofit entity in such a procurement may charge participants in the contract no more than 1 percent of the total value of the contract.
2. The State Cooperative Procurement Schedule provides that a State government may enter into a cooperative procurement contract with one or more vendors if the vendors agree to provide an option to purchase rolling stock and related equipment to the State government and any other participant and the State government acts as the lead procurement agency. Under prior law, FTA referred to these types of State contracts as “State purchasing Schedules” and, as such, are only available to recipients within that State. Under the FAST Act, a grantee may purchase rolling stock and related equipment from any State’s cooperative procurement contract or schedule.

The agreement will allow CAT to purchase Gillig buses in an appropriate manner following FTA and CAT procurement guidelines.

**PROCUREMENT | COMPLIANCE** *(provided by the Procurement Officer):*

The request follows the procurement guidelines of Chatham Area Transit to purchase revenue vehicles following FTA and CAT policies and procedures.

**FINANCIAL IMPACT**

The Authority will continue to budget for bus purchases in its annual budget and five (5) Year Capital Plan that is approved and adopted by the Authority’s Board. The Board’s approval for staff to issue an agreement between Washington State Transit Bus Cooperative and Chatham Area Transit Authority will not have a financial impact. This agreement will allow the Agency to purchase Gillig’s 35’ buses under the Washington State Transit Bus Cooperative contract.

Staff will present to the Board for approval requests to buy buses with supporting documents regarding cost and an explanation of funding for expenses prior to making purchases.

If an index is recoded, that is the replacement is a direct substitute according to the BLS, this Master Contract will instead use the recode. If an index becomes unavailable, Enterprise Services shall substitute a proxy index. If there is not a direct substitute, the next higher aggregate index available will be used. The economic adjustment shall be calculated as follows:
- $$\text{New Price} = \text{Old Price} \times (\text{Current Period Index} / \text{Base Period Index}).$$
- 3.5. PRICE CEILING. ## 5. USING THE MASTER CONTRACT – PURCHASES.

When practicable, Contractor and Participant also shall use telephone orders, email orders, web-based orders, and similar procurement methods (collectively “Purchase Order”). All order documents must reference the Master Contract number. Consistent with Participant’s procurement authority, Participant may propose and negotiate additional terms with the applicable Contractor to meet Participant’s needs, subject to agreement with the applicable Contractor. Under no circumstances will Participant’s agreements change or modify the contract obligations of this Master Contract. The terms of this Master Contract shall apply to any Purchase Order and, in the event of any conflict, the terms of this Master Contract shall prevail. Notwithstanding any provision to the contrary, in no event shall any ‘click-agreement,’ software or web-based application terms and conditions, or other agreement modify the terms and conditions of this Master Contract.
- 5.2. APPROVAL OF PURCHASES. Enterprise Services and, if the Participant is using FTA funds, the Participant’s respective authorization authority for use of those FTA funds shall approve the Participant’s initial Purchase Order. Enterprise Services shall review the Purchase Order and approve that the purchase is within the Scope of the Master Contract. The Participant’s respective authorization authority for use of those FTA funds will approve the purchase according to their own policies and procedures. Participant and Contractor shall provide timely information as requested by Enterprise Services for the approval process.
- 5.3. CONTRACTOR COOPERATIVE USE APPROVAL. Pursuant to RCW 39.26.060, the intent of this Contract is to allow for cooperative procurement to the maximum extent possible. Accordingly, any authorized entity that has executed a Washington State Transit Bus Cooperative Purchasing Agreement with Enterprise Services may place orders under this Master Contract. Participation in the cooperative is voluntary. If agreed to by Contractor, this Contract may be used by any participant in the cooperative to procure the Transit Buses. Contractor has the right to refuse initial orders by cooperative participants on a capacity basis, if the Contractor cannot fulfill the complete order based on delivery deadlines. Orders under this Contract will be fulfilled on a first come, first serve basis of the initial order date. If Contractor rejects an order for capacity, Enterprise Services may request additional information from the Contract regarding Contractor’s capacity to fulfill orders.
- 5.4. FTA PRE-AWARD AND POST-DELIVERY CERTIFICATIONS. Contractor shall take all reasonable steps assist Participants in completing all required pre-award and post-delivery certifications required by federal or state law or policy for purchases under this Master Contract. Contractor shall provide all requested information to complete the certifications in a reasonable time to ensure certifications are completed in a timely manner.
- 5.5. DELIVERY REQUIREMENTS. Contractor must ensure that delivery of Transit Buses will be made as required by this Master Contract, the Purchase Order used by Participants, or as otherwise mutually agreed in writing between the Participant and Contractor. The following apply to all deliveries:
  - (a) Contractor shall make all deliveries to the applicable delivery location specified in the Purchase Order by the delivery date. The delivery date must be within 18 months of the initial order date, as stated in the Purchaser Order or agreement between Participant and

Contractor; provided however that the Participant and Contractor may amend the delivery date by mutual agreement. Deliveries shall occur during Participant's normal work hours and within the time period mutually agreed in writing between Participant and Contractor at the time of order placement.

- (b) Contractor shall deliver all buses with a full tank of fuel and clean inside and out. For any bus not meeting this requirement, Contractor will be assessed \$300. When Transit Buses are delivered, certificates or releases signed by Participant simply acknowledge receipt of the Transit Buses and do not constitute acceptance by the Participant of the condition of the Transit Buses, or its conformance with the terms of the Master Contract or Participant's Purchase Order. Acceptance by Participant occurs subsequent to final inspection when Participant provides Contractor with a written Notice of Acceptance.
- (c) Contractor shall ship or deliver all goods and/or services purchased pursuant to this Master Contract, freight charges prepaid by Contractor, FOB Participant's specified destination with all transportation and handling charges included. Contractor shall bear all risk of loss, damage, or destruction of the goods and/or services ordered hereunder that occurs prior to delivery, except loss or damage attributable to Participant's negligence. Contractor shall use a qualified and experienced common or contract carrier who is properly licensed and insured. Contractor shall make all arrangements for shipment.
- (d) All packing lists, packages, instruction manuals, correspondence, shipping notices, shipping containers, and other written materials associated with this Master Contract shall be identified by the Master Contract number set forth on the cover of this Master Contract and the applicable Participant's Purchase Order number. Packing lists shall be included with each shipment and clearly identify all contents and any backorders.

5.6. PROTOTYPE BUSES. If requested by Participant, Contractor shall produce one prototype bus for each type of bus with respect to the Purchase Order for inspection and testing at the Participant's facilities. The prototype bus will demonstrate that the bus fully meets all requirements of the Purchase Order. Contractor shall produce and deliver the prototype bus to Participant for inspection and testing a minimum of one-hundred twenty (120) days prior to initiation of any production activities for the remaining buses unless otherwise authorized in writing by Participant. The cost of transporting the prototype bus to and from the Participant's facilities shall be at the expense of Contractor. Contractor shall schedule the prototype review with the Participant when a vehicle has been completed with all equipment and furnishings installed, but early enough so design changes resulting from the review will not delay production or cause scrapping of production material.

In the event of nonconformity Participant shall, to the extent practicable, notify Contractor of said nonconformity. No later than seven (7) days after the end of the fourteen (14) day test, Participant shall issue a written report to the Contractor that advises the Contractor of any noncompliance issues and/or any proposed modifications or changes required on the remaining vehicles. Any failure by Participant to detect any defects or omissions in this testing period will in no way relieve Contractor from fully complying with the specifications of the Master Contract and Participant Order. All prototype buses shall be brought up to the final production bus configuration in all respects at no additional cost to Participant, except as may be agreed by change orders.

- 5.7. NOTIFICATION OF DELAY. Contractor shall provide prompt notice to Participant and Enterprise Services for any delay in the manufacturing process that will affect the expected delivery date. Contractor will provide notice of the delay within fourteen (14) days of discovery of the potential delay. This notice of delay must include a reasonable expectation of when the delay will be resolved, the reason for the delay, whether the delay will cause the delivery to exceed the delivery date, and any other applicable information regarding the delay.
- Participant shall provide Contractor with notice of acceptance of the reasonable delay or notice that the delay is determined to be non-excusable within seven (7) days of receipt of the notice of delay.
  - If there is a dispute between Contractor and Participant as to whether the delay is reasonable, Contractor may appeal Participant's decision to Enterprise Services within seven (7) days of receipt of the notice that the delay is non-excusable. Enterprise Services will review the provided information and make a final determination as to whether the delay is reasonable or non-excusable. If a dispute remains after this procedure, parties shall follow the dispute resolution process of Section 16.
  - Contractor shall promptly comply with any request from Enterprise Services or Participant for additional information in making the delay determination. A request for more information from Enterprise Services or Participant tolls the time for required response until the time that Contractor responds to the request for more information.
  - Reasonable delay is a delay for which the Contractor is not responsible. A reasonable delay must arise from unforeseeable causes, be beyond the control of Contractor, and be without the fault of the Contractor. A reasonable delay will extend the delivery date by the agreed upon length of the delay.
  - Non-excusable delay is a delay for which Contractor is wholly or partially responsible. A non-excusable delay is a delay that arises from a foreseeable cause, is within the control of Contractor, or is due to the fault of Contractor. A non-excusable delay will not extend the agreed upon delivery date.
- 5.8. DELAY DAMAGES. Participant will be damaged by any failure on the part of Contractor to deliver the buses within the time specified in delivery date. The amount of damages for delay of beyond the delivery date is difficult if not impossible to ascertain. The amount of such damages Contractor shall pay to Participant is fixed at the amount of \$250.00 per day for each bus not delivered in substantially good condition as inspected by the Participant. Participant may elect to deduct the amount of the damages from the amount due to Contractor under the Purchase Order or may notify Contractor of the amount due based on the delay. If Participant requires Contractor to pay the delay damages, Contractor shall pay the entire amount within thirty (30) days after receipt of a written demand by Participant. The payment of damages will be in lieu of any damages for any loss of profit, loss of revenue, loss of use, or for any other direct, indirect, special or consequential losses or damages of any kind that may be suffered by Participant arising at any time from the failure of Contractor to fulfill the delivery obligations in a timely manner.
- 5.9. INSPECTION AND ACCEPTANCE OF TRANSIT BUSES. Transit Buses purchased under this Master Contract are subject to Participant's reasonable inspection, testing, and approval at Participant's destination for a period of fourteen (14) days from the date that the Transit Buses are received at the place of delivery. Participant reserves the right to reject and refuse acceptance of Transit Buses that are not in accordance with this Master Contract and the Participant's Purchase Order during this inspection period. Representatives of Contractor may witness acceptance inspections

and testing if so requested by Contractor. Participant retains the right to complete as thorough an inspection as it deems necessary to determine if each bus is in conformance with Master Contract and Purchase Orders requirements for configuration and performance parameters. Contractor shall coordinate and manage Contractor's post-delivery inspection process and notify the Participant of scheduling and availability of buses ready for pre-acceptance inspection. Acceptance by the Participant occurs when Participant provides Contractor with a written Notice of Acceptance, which will be subsequent to final inspection by responsible assigned employees of the Participant. All acceptances are subject to the warranty requirements of this Master Contract.

- 5.10. INSPECTION DEFECTS. If there are any apparent defects in the goods and/or services within the inspection period, Participant will promptly notify Contractor. At Participant's option, and without limiting any other rights, Participant may:
- Require Contractor to repair or replace, at Contractor's expense, any or all of the damaged goods; or
  - Require Contractor to refund the price of any or all of the damaged goods; or
  - Participant may note any damage to the goods on the receiving report, decline acceptance, and deduct the cost of rejected goods from final payment.

Payment for any goods under such Purchase Order shall not be deemed acceptance of the goods. If Participant discovers defects during the inspection process, the requirement for timely delivery under 6.2(a) will continue to run until Contractor resolves the defects and provides Participant with the applicable goods free of defects. The period for the delivery date for the goods will be tolled for the length of time Participant was in the inspection period until the time that Participant provided notice of defect to Contractor.

- 5.11. POST-INSPECTION REPAIRS BY CONTRACTOR. In the event of non-acceptance of the bus, Contractor must begin Work within five (5) working days after receiving notification from Participant of failure of acceptance tests. Participant shall make the bus available to complete repairs timely with the Contractor repair schedule. If Contractor fails or refuses to begin the repairs within five (5) days, then the repair work may be done by Participant's personnel with reimbursement by Contractor. Contractor shall provide, at its own expense, all spare parts, tools and space required to complete the repairs. At Participant's option, Contractor may be required to remove the bus from Participant's property while repairs are being made. If the bus is removed from Participant's property, then repair procedures must be diligently pursued by Contractor's representatives, and Contractor shall assume risk of loss while the bus is under its control.
- 5.12. CONTRACTOR SERVICE AND PARTS SUPPORT. For each Participant Order, Contractor shall supply Participant with a completed *Exhibit D - Contractor Service and Parts Support Data* with contact information on the representatives responsible for assisting Participant, as well as the location of the nearest distribution center, which shall furnish a complete supply of parts and components for the repair and maintenance of the buses to be supplied. Contractor shall also submit its policy on transportation charges for parts other than those covered by warranty.
- 5.13. PARTS AVAILABILITY GUARANTEE. Contractor guarantees to provide the spare parts, software, and all equipment necessary to maintain and repair the buses supplied under this Master Contract for a period of at least twelve (12) years after the date of acceptance. Parts will be interchangeable with the original equipment and will be manufactured in accordance with the quality assurance

provisions of this Master Contract. Prices shall not exceed the Contractor's then-current published catalog prices.

Where the parts ordered by the Participant are not received within two (2) working days of the agreed-upon time and date and a bus procured under this Master Contract is out of service due to the lack of said ordered parts, then the Contractor shall provide the Participant, within eight (8) hours of the Participant's verbal or written request, the original suppliers' and/or manufacturers' parts numbers, company names, addresses, telephone numbers and contact persons' names for all of the specific parts not received by the Participant.

In the event Contractor fails to honor this parts guarantee or parts ordered by the Participant are not received within thirty (30) days of the agreed-upon delivery date, then Contractor shall provide to Participant, within seven (7) days of the Agency's verbal or written request, the design and manufacturing documentation for those parts manufactured by the Contractor and the original suppliers' and/or manufacturers' parts numbers, company names, addresses, telephone numbers and contact persons' names for all of the specific parts not received by the Participant. Contractor's design and manufacturing documentation provided to the Participant shall be for its sole use in regard to the buses procured under this Master Contract and for no other purpose.

- 5.14. **TERMINATION FOR WITHDRAWAL OF FUNDING.** If any Participant's expected or actual funding for purchases under this Master Contract are withdrawn, reduced, or limited in any way prior to the payment for the last bus accepted, Participant may, upon written notice to Contractor, terminate their Purchase Order for Transit Buses not yet accepted. If the Purchase Order is terminated as provided in this subsection: (1) Participant will be liable only for payment in accordance with the terms of this Contract for work performed satisfactorily up to the date of termination and materials on order that cannot be canceled; and (2) Contractor shall be released from any obligation to provide additional buses as are affected by the termination.
- 5.15. **FACILITY INSPECTIONS.** Contractor shall provide right of access to its facilities to Enterprise Services, any Enterprise Services agents, Participant, any of Participants agents, or to any other authorized agent or official of the state of Washington or the federal government, at all reasonable times, in order to monitor and evaluate performance, compliance, and/or quality assurance under this Contract.
- 5.16. **ON SITE REQUIREMENTS.** While on Participant's premises, Contractor, its agents, employees, or subcontractors shall comply, in all respects, with Participant's physical, fire, access, safety, or other security requirements.

## **6. INVOICING & PAYMENT.**

- 6.1. **CONTRACTOR INVOICE.** Contractor shall submit to Participant's designated invoicing contact properly itemized invoices. Such invoices shall itemize the following:
- (a) Master Contract No. 06719
  - (b) Contractor name, address, telephone number, and email address for billing issues (i.e., Contractor Customer Service Representative)
  - (c) Contractor's Federal Tax Identification Number
  - (d) Date(s) of delivery
  - (e) Invoice amount; and
  - (f) Payment terms, including any available prompt payment discounts.

Contractor's invoices for payment shall reflect accurate Master Contract prices. Invoices will not be processed for payment until receipt of a complete invoice as specified herein.

- 6.2. PAYMENT. Payment is the sole responsibility of, and will be made by, the Participant. Payment is due within thirty (30) days of invoice. If Participant fails to make timely payment(s), Contractor may invoice Participant in the amount of one percent (1%) per month on the amount overdue or a minimum of \$1. Payment will not be considered late if a check or warrant is mailed within the time specified. Contractor provides a prompt payment discount of 0.10% for payments within 20 days of receipt of the invoice. This discount will only be provided for Participant payments within the stated time.
- 6.3. MILESTONE PAYMENTS. Participant and Contractor may condition payment on the achievement of various agreed upon milestones for the Transit Buses. Milestone payments will be mutually agreed upon by Participant and Contractor in regard to timing of milestone, acceptance of milestone, and amounts for milestone payments. Payment for milestones will follow the procedure for invoice payment.
- 6.4. OVERPAYMENTS. Contractor promptly shall refund to Participant the full amount of any erroneous payment or overpayment. Such refunds shall occur within thirty (30) days of written notice to Contractor; *Provided*, however, that Participant shall have the right to elect to have either direct payments or written credit memos issued. If Contractor fails to make timely payment(s) or issuance of such credit memos, Participant may impose a one percent (1%) per month on the amount overdue thirty (30) days after notice to the Contractor.
- 6.5. NO ADVANCE PAYMENT. No advance payments shall be made for any goods or services furnished by Contractor pursuant to this Master Contract.
- 6.6. NO ADDITIONAL CHARGES. Unless otherwise specified herein, Contractor shall not include or impose any additional charges including, but not limited to, charges for shipping, handling, or payment processing.
- 6.7. TAXES/FEES. Contractor promptly shall pay all applicable taxes on its operations and activities pertaining to this Master Contract. Failure to do so shall constitute breach of this Master Contract. Unless otherwise agreed, Participant shall pay applicable sales tax imposed by the tax jurisdictions in which delivery occurs on purchased goods and/or services. Contractor, however, shall not make any charge for federal excise taxes and Participant agrees to furnish Contractor with an exemption certificate where appropriate.

**8. CONTRACTOR SALES REPORTING; VENDOR MANAGEMENT FEE; & CONTRACTOR REPORTS.**

- 8.1. **MASTER CONTRACT SALES REPORTING.** Contractor shall report total Master Contract sales quarterly to Enterprise Services, as set forth below.
- (a) **Master Contract Sales Reporting System.** Contractor shall report quarterly Master Contract sales in Enterprise Services' Master Contract Sales Reporting System. Enterprise Services will provide Contractor with a login password and a vendor number. The password and vendor number will be provided to the Sales Reporting Representative(s) listed on Contractor's Bidder Profile.
- (b) **Data.** Each sales report must identify every authorized Participant by name as it is known to Enterprise Services and its total combined sales amount invoiced during the reporting period (i.e., sales of an entire agency or political subdivision, not its individual subsections). The "Miscellaneous" option may be used only with prior approval by Enterprise Services. Upon request, Contractor shall provide contact information for all authorized Participants specified herein during the term of the

Master Contract. If there are no Master Contract sales during the reporting period, Contractor must report zero sales.

- (c) Due dates for Master Contract Sales Reporting. Quarterly Master Contract Sales Reports must be submitted electronically by the following deadlines for all sales invoiced during the applicable calendar quarter:

| FOR CALENDAR QUARTER ENDING | MASTER CONTRACT SALES REPORT DUE |
|-----------------------------|----------------------------------|
| March 31:                   | April 30                         |
| June 30:                    | July 31                          |
| September 30:               | October 31                       |
| December 31:                | January 31                       |

8.2. **VENDOR MANAGEMENT FEE.** Contractor shall pay to Enterprise Services a vendor management fee (“VMF”) of 0.15 percent on the purchase price for all Master Contract sales (the purchase price is the total invoice price less applicable sales tax).

- (a) The sum owed by Contractor to Enterprise Services as a result of the VMF is calculated as follows:

$$\text{Amount owed to Enterprise Services} = \text{Total Master Contract sales invoiced (not including sales tax)} \times .00150.$$

- (b) The VMF must be rolled into Contractor’s current pricing. The VMF must not be shown as a separate line item on any invoice unless specifically requested and approved by Enterprise Services.
- (c) Enterprise Services will invoice Contractor quarterly based on Master Contract sales reported by Contractor. Contractors are not to remit payment until they receive an invoice from Enterprise Services. Contractor’s VMF payment to Enterprise Services must reference this Master Contract number, work request number (if applicable), the year and quarter for which the VMF is being remitted, and the Contractor’s name as set forth in this Master Contract, if not already included on the face of the check.
- (d) Failure to accurately report total net sales, to submit a timely usage report, or remit timely payment of the VMF, may be cause for Master Contract suspension or termination or the exercise of other remedies provided by law. Without limiting any other available remedies, the Parties agree that Contractor’s failure to remit to Enterprise Services timely payment of the VMF shall obligate Contractor to pay to Enterprise Services, to offset the administrative and transaction costs incurred by the State to identify, process, and collect such sum, the sum of \$200.00 or twenty-five percent (25%) of the outstanding amount, whichever is greater, or the maximum allowed by law, if less.
- (e) Enterprise Services reserves the right, upon thirty (30) days advance written notice, to increase, reduce, or eliminate the VMF for subsequent purchases, and reserves the right to renegotiate Master Contract pricing with Contractor when any subsequent adjustment of the VMF might justify a change in pricing.

- 8.3. ANNUAL MASTER CONTRACT SALES REPORT. Contractor shall provide to Enterprise Services a detailed annual Master Contract sales report. Such report shall include, at a minimum: Product description, part number or other Product identifier, per unit quantities sold, and Master Contract price. This report must be provided in an electronic format that can be read by MS Excel.

**9. RECORDS RETENTION & AUDITS.**

- 9.1. RECORDS RETENTION. Contractor shall maintain books, records, documents, and other evidence pertaining to this Master Contract and orders placed by Participants under it to the extent and in such detail as shall adequately reflect performance and administration of payments and fees. Contractor shall retain such records for a period of six (6) years following expiration or termination of this Master Contract or final payment for any order placed by a Participant against this Master Contract, whichever is later; *Provided*, however, that if any litigation, claim, or audit is commenced prior to the expiration of this period, such period shall extend until all such litigation, claims, or audits have been resolved.
- 9.2. AUDIT. Enterprise Services reserves the right to audit, or have a designated third party audit, applicable records to ensure that Contractor has properly invoiced Participants and that Contractor has paid all applicable contract management fees. Accordingly, Contractor shall permit Enterprise Services, any Participant, and any other duly authorized agent of a governmental agency, to audit, inspect, examine, copy and/or transcribe Contractor's books, documents, papers and records directly pertinent to this Master Contract or orders placed by a Participant under it for the purpose of making audits, examinations, excerpts, and transcriptions. This right shall survive for a period of six (6) years following expiration or termination of this Master Contract or final payment for any order placed by a Participant against this Master Contract, whichever is later; *Provided*, however, that if any litigation, claim, or audit is commenced prior to the expiration of this period, such period shall extend until all such litigation, claims, or audits have been resolved.
- 9.3. OVERPAYMENT OF PURCHASES OR UNDERPAYMENT OF FEES. Without limiting any other remedy available to any Participant, Contractor shall (a) reimburse Participants for any overpayments inconsistent with the terms of this Master Contract or orders, at a rate of 125% of such overpayments, found as a result of the examination of the Contractor's records; and (b) reimburse Enterprise Services for any underpayment of fees, at a rate of 125% of such fees found as a result of the examination of the Contractor's records (e.g., if Contractor underpays the Vendor Management Fee by \$500, Contractor would be required to pay to Enterprise Services  $\$500 \times 1.25 = \$625$ ).

**10. INSURANCE.**

- 10.1. REQUIRED INSURANCE. During the Term of this Master Contract, Contractor, at its expense, shall maintain in full force and effect the insurance coverages set forth in *Exhibit C – Insurance Requirements*. All costs for insurance, including any payments of deductible amounts, shall be considered incidental to and included in the prices for goods/services and no additional payment shall be made.
- 10.2. WORKERS COMPENSATION. Contractor shall comply with applicable workers compensation statutes and regulations (e.g., RCW Title 51, Industrial Insurance). If Contractor fails to provide industrial insurance coverage or fails to pay premiums or penalties on behalf of its employees as may be required by law, Enterprise Services may terminate this Master Contract. This provision does not waive any of the Washington State Department of Labor and Industries (L&I) rights to collect

from Contractor. In addition, Contractor waives its immunity under RCW Title 51 to the extent it is required to indemnify, defend, and hold harmless the State of Washington and its agencies, officials, agents, or employees.

## **11. WARRANTY.**

- 11.1. **CONTRACTOR WARRANTY.** Warranties in this document are in addition to any statutory remedies or warranties imposed on Contractor. Consistent with this requirement, Contractor warrants and guarantees to Participant each complete Transit Bus and specific subsystems and components as follows.

Contractor warrants the Transit Buses are of good material and workmanship and agrees to promptly replace any part or parts, at no cost to the Participant, which by reason of defective materials or workmanship fail under normal use, free of negligence or accident during the applicable warranty period. Contractor warranties include the replacement of parts and services associated with the replacement and repair, including but not limited to any diagnostic, refurbishment, shipping, or travel costs.

Performance requirements based on design criteria will not be deemed a warranty item. Contractor shall insure in its procurement arrangements that the warranty requirements of this Master Contract are enforceable through and against the Contractor's suppliers, vendors, material men, and subcontractors. Any inconsistency or difference between the warranties extended to Participants by Contractor and those extended to Contractor by its suppliers, vendors, material men, and subcontractors, are at the risk and expense of Contractor. Such inconsistency or difference will not excuse Contractor's full compliance with its obligations under this Contract.

- 11.2. **WARRANTY INFORMATION.** Upon Participant's request, Contractor promptly shall provide complete copies of all written warranties or guarantees and documentation of any other arrangement relating to such warranties or guarantees extended by Contractor's suppliers, sub-suppliers, vendors, material men, and subcontractors covering parts, components, and systems utilized in the bus. Contractor shall ensure that such suppliers, sub-suppliers, vendors, material men, and subcontractors satisfactorily perform warranty related work when requested to do so by Participant.
- 11.3. **SYSTEM WARRANTIES.** The following systems are warranted to be free from defects and related defects for the years and mileage listed in the table below, whichever comes first. Each warranty is based on regular operation of the bus under the operating conditions prevailing in Participant's locale.

| Warranty  | Description   | Years/Mileage   |
|---|---|---|

| Emission Control System                               | complete exhaust system, including catalytic converter (if required), after treatment device, components identified as emission control devices                   | 5 years, 100,000 miles  |

The ESS is warranted to remain within warrantable end of life during the warranty period. The ESS original specified energy storage capacity and warrantable end of life, as a percentage of the original specified energy capacity, must be clearly defined by the Contractor. Acceptable methods for measuring or obtaining ESS storage capacity with respect to its original specified capacity must be clearly identified by the manufacturer. The manufacturer will propose the test method, and certify the results are true and accurate. The test will be performed according to a documented test procedure. Participant may engage third-parties for capacity testing.

11.4. SUBSYSTEMS WARRANTY. The Contractor warrants the following subsystems to be free from defects and related defects for at least two years or 100,000 miles, whichever comes first.

11.5. SERIAL NUMBERS. Prior to final delivery of each bus, Contractor shall provide a complete electronic list of serialized units installed on each bus to facilitate warranty tracking. The list will include, but is not limited to the following:

- |  |   |
|--|---|
| <ul style="list-style-type: none"> <li>▪ Engine</li> <li>▪ Transmission or Traction Motor</li> <li>▪ Alternator</li> <li>▪ Starter</li> <li>▪ Destination/Luminator (Major components)</li> <li>▪ Drive axle and non-drive axle(s)</li> <li>▪ DVR unit, supporting electronics (Monitors)</li> </ul> | <ul style="list-style-type: none"> <li>▪ Driver's seat</li> <li>▪ Battery equalizer</li> <li>▪ Radiator package</li> <li>▪ Exhaust emission components</li> <li>▪ A/C compressor and condenser/evaporator unit</li> <li>▪ Power steering unit</li> <li>▪ Fuel cylinders (if applicable)</li> <li>▪ Air compressor</li> <li>▪ Wheelchair ramp (if applicable)</li> </ul> |
|--|---|

Contractor shall provide updated serial numbers resulting from warranty campaigns. The format of the list will be approved by Participant prior to delivery of the first production bus.

11.6. EXTENSION OF WARRANTY. If, during the warranty period, repairs or modifications on any bus are made necessary by defective design, materials, or workmanship but are not completed due to lack of material or inability to provide the proper repair for thirty (30) calendar days, then the applicable warranty period shall be extended by the number of days equal to the delay period.

11.7. VOIDING OF WARRANTY. The warranty will not apply to the failure of any part or component of the bus that directly results from misuse, negligence, accident, or repairs not conducted in accordance with the Contractor-provided maintenance manuals and with workmanship performed by adequately trained personnel in accordance with recognized standards of the industry. The warranty will be void if Participant fails to conduct normal inspections and scheduled preventive maintenance procedures as recommended in the Contractor's maintenance manuals and if that omission caused the part or component failure. Participant should maintain documentation, auditable by Contractor, verifying service activities in conformance with the Contractor's maintenance manuals.

11.8. EXCEPTIONS AND ADDITIONS TO WARRANTY. Warranties will not apply to the following items:

- scheduled maintenance items
- normal wear-out items, such as brake linings, filters, belts, and wiper blades
- items furnished by Participant

Should Participant require the use of a specific product and has rejected Contractor's request for an alternate product, then the standard supplier warranty for that product will be the only warranty provided to Participant. This product will not be eligible under "Fleet Defects," below.

11.9. PASS-THROUGH/SUPERIOR WARRANTY. If any vendor to the Contractor offers, at no additional cost, a warranty on a component that is longer or more comprehensive than the required warranties on this Contract, Contractor shall inform Participant of the additional warranty and pass it through to Participant at no additional cost.

Contractor shall state in writing that Participant's warranty reimbursements will not be impacted. Contractor also shall state in writing any exceptions and reimbursement including all costs incurred in transport of vehicles and/or components. At any time during the warranty period, Contractor may request approval from Participant to assign its warranty obligations to others, but only on a case-by-case basis approved in writing by Participant. Otherwise, Contractor shall be solely responsible for the administration of the warranty as specified. Warranty administration by others does not eliminate the warranty liability and responsibility of Contractor.

11.10. FLEET DEFECTS. "Fleet Defect" means cumulative failures of twenty five (25%) percent of the same components in the same or similar application in a minimum fleet size of twelve (12) or more buses where such items are covered by warranty. A Fleet Defect applies only to the base warranty period in for Complete Bus, Propulsion System, and Subsystems Warranty. When a Fleet Defect is declared, the remaining warranty period on that item/component is suspended. The warranty period does not resume until the Fleet Defect is corrected.

For the purpose of Fleet Defects, each order shall be treated as a separate bus fleet. In addition, if there is a change in a major component within the order, the buses containing the new major component will become a separate bus fleet for the purposes of determining Fleet Defects.

Contractor shall correct a Fleet Defect under the warranty provisions defined in Section 13 Repair Procedure. After correcting the Fleet Defect, Participant and Contractor shall mutually agree to and Contractor shall promptly undertake and complete a work program reasonably designed to prevent the occurrence of the same Fleet Defect in all other buses and spare parts purchased under the order. Where the specific Fleet Defect is solely attributed to particular identifiable parts, the work program will include redesign and/or replacement of only the defectively designed and/or manufactured parts. In all other cases, the work program will include inspection and/or correction of all the buses in the fleet via a mutually agreed-to arrangement. Contractor shall update, as necessary, technical support information (parts, service and operator's manuals) due to changes resulting from warranty repairs. Participant may immediately declare a defect in design resulting in a safety hazard to be a Fleet Defect. Contractor shall be responsible to furnish, install and replace all defective units.

The Fleet Defect warranty provisions do not apply to Participant-supplied items, such as radios, fare collection equipment, communication systems, and tires. In addition, Fleet Defects do not apply to interior and exterior finishes, hoses, fittings, and fabric.

## 12. REPAIR PROCEDURE.

- 12.1. REPAIR PERFORMANCE. Contractor is responsible for all warranty-covered repair work, including diagnostics of warranty covered parts. To the extent practicable, Participant will allow Contractor or its designated representative to perform repair work. At its discretion, Participant may perform such repair work if it determines it needs to do so based on transit service or other requirements. Contractor shall reimburse Participant for any warranty-covered repair work it performs.
- 12.2. REPAIRS BY THE CONTRACTOR. Participant shall notify Contractor's designated representative within thirty (30) days if Participant detects a defect within the warranty periods defined in this Master Contract or the applicable Participant Order. Contractor or its designated representative shall, if requested, begin repair work on warranty-covered repairs within five (5) calendar days after receiving notification of a defect from Participant. Participant will make the bus available to complete repairs timely with the Contractor's repair schedule.
- Contractor shall provide at its own expense all spare parts, tools, and space required to complete repairs. At Participant's option, Contractor may be required to remove the bus from Participant's property while repairs are made. If the bus is removed from Participant's property, then repair procedures must be diligently pursued by Contractor's representative.
- 12.3. REPAIRS BY PARTICIPANT. If Participant performs the warranty-covered repairs, then it must correct or repair the defect and any related defects utilizing parts supplied by Contractor specifically for this repair. At its discretion, Participant may use Contractor-specified parts available from its own stock if deemed in its best interests. Parts supplied by Contractor may be remanufactured but must have the same form, fit and function, and warranty. The parts will be shipped prepaid to Participant from any source selected by Contractor within fourteen (14) days of receipt of the request for said parts and shall not be subject to a handling charge.
- 12.4. DEFECTIVE COMPONENT RETURN. Contractor may request that parts covered by the warranty be returned to the manufacturing plant. Contractor will pay the freight costs for this action.
- 12.5. FAILURE ANALYSIS. Upon specific request of Participant, Contractor will provide a failure analysis of Fleet Defect or safety-related parts, or major components, removed from buses under the terms of the warranty that could affect fleet operation. Such reports will be delivered within 60 days of the receipt of failed parts.
- 12.6. REIMBURSEMENT FOR LABOR AND OTHER RELATED COSTS. Contractor shall reimburse Participant for repair labor. The amount is determined by Participant for a qualified mechanic at a straight time wage rate per hour, which includes fringe benefits and overhead adjusted for Participant's most recently published rate in effect at the time the repair work is performed, plus the cost of towing the bus if such action was necessary and if the bus was in the normal service area. These wage and fringe benefit rates shall not exceed the rates in effect in Participant's service garage at the time the defect correction is made.
- 12.7. REIMBURSEMENT FOR PARTS. Contractor shall reimburse Participant for defective parts and for parts that must be replaced to correct the defect. The reimbursement will be at the current price at the time of repair and include taxes where applicable, plus fifteen (15) percent handling costs. Participant submits the claim and defective part(s), when requested. Reimbursement for all accepted claims shall occur no later than sixty (60) days from the date of acceptance of a valid claim. Participant may dispute rejected claims or claims for which Contractor did not reimburse the full amount. Contractor and Participant will review disputed warranty claims during the following quarter to reach an equitable decision to permit the disputed claim to be resolved and closed. Contractor and Participant will review all claims at least once per quarter throughout the entire warranty period to ensure that open claims are being tracked and properly dispositioned.

- 12.9. **WARRANTY AFTER REPLACEMENT/REPAIRS.** If any component, unit, or subsystem is repaired, rebuilt, or replaced by Contractor or by Participant with the concurrence of Contractor, then the component, unit, or subsystem will have the unexpired warranty period of the original. Repairs will not be warranted if Contractor-provided or authorized parts are not used for the repair, unless Contractor has failed to respond within five days, in accordance with Section 13.2 Repairs by the Contractor.

If an item is declared to be a Fleet Defect, then the warranty stops with the declaration of the Fleet Defect. Once the Fleet Defect is corrected, the items shall have three (3) months or the remaining time and/or miles of the original warranty, whichever is greater. This remaining warranty period will begin on the repair/replacement date for corrected items on each bus if the repairs are completed by Contractor or on the date Contractor provides all parts to Participant if repairs are completed by Participant.

- Records maintenance: The quality assurance organization shall maintain and use records and data essential to the effective operation of its program. These records and data shall be available for review by the resident inspectors. Inspection and test records for this procurement shall be available for a minimum of one year after inspections and tests are completed.
- Corrective action: The quality assurance organization shall detect and promptly ensure correction of any conditions that may result in the production of defective transit buses. These conditions may occur in designs, purchases, manufacture, tests or operations that culminate in defective supplies, services, facilities, technical data or standards.

13.5. BASIC STANDARDS AND FACILITIES. The following standards and facilities shall be basic in the quality assurance process:

- Configuration control: Contractor shall maintain drawings, assembly procedures and other documentation that completely describe a qualified bus that meets all of the options and special requirements of each Purchase Order. 13.6. MAINTENANCE OF CONTROL. Contractor shall maintain quality control of purchases:

- Supplier control: Contractor shall require each supplier to maintain a quality control program for the services and supplies that it provides. Contractor's quality assurance organization shall inspect and test materials provided by suppliers for conformance to specification requirements. Materials that have been inspected, tested and approved shall be identified as acceptable to the point of use in the manufacturing or assembly processes. Controls shall be established to prevent inadvertent use of nonconforming materials.

- Purchasing data: Contractor shall verify that all applicable specification requirements are properly included or referenced in purchase orders of articles to be used on transit buses.

13.7. MANUFACTURING CONTROL. Contractor shall maintain quality control of production:

- Controlled conditions: Contractor shall ensure that all basic production operations, as well as all other processing and fabricating, are performed under controlled conditions. configurations shall not require special identification. Articles rejected as unsuitable or scrap shall be plainly marked and controlled to prevent installation on the bus. Articles that become obsolete as a result of engineering changes or other actions shall be controlled to prevent unauthorized assembly or installation. Unusable articles shall be isolated and then scrapped. Discrepancies noted by the Contractor or resident inspectors during assembly shall be entered by the inspection personnel on a record that accompanies the major component, subassembly, assembly or bus from start of assembly through final inspection. Actions shall be taken to correct discrepancies or deficiencies in the manufacturing processes, procedures or other conditions that cause articles to be in nonconformity with the requirements of the Contract specifications. The inspection personnel shall verify the corrective actions and mark the discrepancy record. If discrepancies cannot be corrected by replacing the nonconforming materials, then the Agency shall approve the modification, repair or method of correction to the extent that the Contract specifications are affected.

- (a) Termination for Withdrawal of Authority. Enterprise Services may suspend or terminate this Master Contract if, during the term hereof, Enterprise Services' procurement authority is withdrawn, reduced, or limited such that Enterprise Services, in its judgment, would lack authority to enter into this Master Contract; *Provided*, however, that such suspension or termination for withdrawal of authority shall only be effective upon twenty (20) days prior written notice; and *Provided further*, that such suspension or termination for withdrawal of authority shall not relieve any Participant from payment for goods and/or services already ordered as of the effective date of such notice. 10. **DISPUTE RESOLUTION.** To the extent practicable, the Parties shall use their best, good faith efforts cooperatively and collaboratively to resolve any dispute that may arise in connection with this Agreement as efficiently as practicable, and at the lowest possible level with authority to resolve such dispute. The Parties shall make a good faith effort to continue without delay to carry out their respective responsibilities under this Agreement while attempting to resolve any such dispute. If, however, a dispute persists and cannot reasonably be resolved, it may be escalated within each organization. In such circumstance, upon notice by either party, each party, within five (5) business days shall reduce its description of the dispute to writing and deliver it to the

other party. The receiving party then shall have three (3) business days to review and respond in writing. In the event that the Parties cannot then agree on a resolution of the dispute, the Parties shall schedule a conference between the respective senior managers of each organization to attempt to resolve the dispute. In the event the Parties cannot agree on a mutual resolution within fifteen (15) business days, any party may resort to court to resolve the dispute.
